F&A is a professional business consulting and staffing firm with specialties in finance, accounting, technology, tax, and audit. Below is an example of how we provided accounting and financial services to our client.

CHALLENGE

A multi million dollar distribution client experienced total headcount turn over in the accounting and finance department upon the departure of their CFO. The company needed immediate assistance in the day-to-day accounting and finance operations as well as training for new employees.

HOW WE HELPED

F&A went into the company and managed all of the day-to-day accounting and finance functions. F&A professionals developed an accounting manual and a documented streamlined process for their monthly accounting close. This would ensure that in the event of more turn over within the departments, there would be documented procedures in place for ease of transition to new employees. We also trained all of the new employees to ensure a smooth on boarding process.

OUTCOME

F&A was able to successfully bridge the gap in the accounting and finance departments' daily functionality providing the company with a smooth transition to the new employees. We were also able to provide the client with the proper training for their new employees to ensure the future success of the departments upon completion of our engagement.

Who We Are

A professional business consulting firm with specialties in finance, accounting, technology, tax, and audit. From strategic financial planning, business intelligence, to tax, audit and accounting services our associates are committed to maximizing the potential of every aspect of your business.

Our Mission

To provide our clients world class service across multiple industries including retail, e-commerce, financial services, engineering, sales, marketing and manufacturing.

Our Commitment

To deliver quality and timely consulting services to each and every client. We will approach each engagement with a commitment to professionalism, fairness, trust and above all integrity. F&A will leverage our experienced team of professionals with broad industry and technical skills to deliver consistent results to our clients.
